WAUSEON OHIO, FRIDAY, OCTOBER 31, 1919

\$1.50 PER YEAR

WAUSEON MAN STILL ON GUARD

Wauseon Man Still in the Army Rendering Invaluable Service to the People of the U. S. In Guarding Against Bolshevism and Anarchy-Before Senate Committee

Althogh the sons that Wauseon has to be proud of because of their services to the country in these times or stress and strain is Donald C Vanneran, Lieutenant D. C. Van-Buren low on the Staff of Maj. Gen. Leonard Wood. Donaid didn't go to training camp when war was declared with Germany, there were reasons why he should not; one of them was Master Biram VanBuren. But that aid not hinder Donald VanBuren from serving his country in a manner as vitany important to the nation as was the service which called our men overseas; he threw himself into the work of one of the principal organizations co-operating with the Depart-ment of Justice and the U. S. Secret Service to mest, check, route out and punish the subtle propoganda of pro-geransm with which our country was being intested and whose work was resuming in the destruction of lives and property here and impor-tant information and help to the enemy overseas. Mr. VanBuren was chief operator in his home city, Cleveland, and the value of his work and that of his associates, in that city cannot be overestimated. The next step was into the service

and ultimate assignment to duty in Chicago: It has been strenuous duty from that time to this and it seems tnat the end is not yet. We have been reading in the daily papers some hints, of the work Lt. Van Buren has been doing and something of the work which has been ac-complished. The Washington Star or October 24th, casts some light up-on his activities. Lt. VanBaren appeared as a witness before the Senate Committee investigating the Steel Strike at Gary, Indiana. The follow-ing extracts from his testimony are interesting, not only because they come from one of our Wauseon boys but also because of the possible light they throw upon the primary causes of the industrial and economic turmoil in which we find ourselves at

"Our first interest in Gary" said Lt. VanBuren,, "came when Chief ot Police Forb.s came to Chicago ir, .n

start a revolution-Two names were given us as those Foury and R. B. Mckibben. George was a chemist and we learn:

occupation there tremenduous quantities of 'red' literature. The bible of the 're'l', the anarchist and the bolshevist is the manifesto of the communist party of Russia put out at what is known as the third international meeting at Moscow in March.

Many thousand copies of this were in of Wausson and its citizens and are ready to give their control of the communist party of Russia put out able competent citizens who are interested in the progress and welfare of Wausson and its citizens and are

Gary."

Lieutenant VanBuren read extracts from a booklet seized at Gary. It urged revolution upon workers in all lands in the name of the conquering proletariat of Russia, and said open combat was the only road to the red-combat was the road to the red-combat was the road to the red-combat was the road to of alleged grievances.

Lenine and Trotaky. I call your attention to the fact that it was printed in Chicago by the Arbiter Zeitung Publishing Company, which is significant."

Cording to his merits but they will be performing a real and valuable service to the Village by voting for his re-election.

Mr. Bulger has given to the conduct of the affairs of the village the same of the affairs of the village the same

MAIN MARKET or INTER-COUNTY roads so that the funds MUST be spent on the very roads which are likely to be last repaired or reconstructed if the one mill levy is not sutherized.

After thorough investigation and the abandonment of one plan which was found to be impracticable, the board has settled upon a plan which authorized.

road than it does to maintain it.

The Bad Road Tax is Grater Than time and the interests of the town

is no longer a question of not Harper goes off the board at this being able to afford good roads, by time

ford to be without good roads. The ex use of not having the money to build roads is one that we have framed in our minds; it is not really true. A country will always be poor, financially speaking, if it continues to have bad roads. As a plain business proposition, a man could well afford to take options on the property on both sides of the property on both sides of the highway and build that road of good material at his own expense, because when the road was completed the increase in the property values alone (Continued on page eight)
